## PROFESSIONAL PROFILE

Results-driven **Humanitarian Data, MEAL, Information Management and ICT professional** with 8+ years of combined experience supporting field operations, digital data collection, database administration, community-level assessments and technology-enabled program delivery in North-East Nigeria.

Experienced in translating field activities into **accurate, timely and decision-ready information** using KoboToolbox, ODK, Microsoft Excel, Access and digital reporting tools. Strong background in household surveys, beneficiary verification, data quality assurance, field team support, community engagement and protection of sensitive information.

Known for working effectively in **complex, high-pressure and hard-to-reach environments**, coordinating field activities, troubleshooting technology challenges and maintaining high standards of data accuracy, confidentiality and operational accountability.

**Target Roles:** MEAL Assistant/Officer | Information Management Officer | Data Assistant | Field Coordinator | Enumerator | ICT Officer | Data Management Specialist | Monitoring & Evaluation Support

---

## CORE PROFESSIONAL STRENGTHS

### MEAL & Monitoring

- Baseline & Endline Surveys
- Rapid Needs Assessments
- Beneficiary Verification
- Household Surveys & Enumeration
- Monitoring Support
- Field-Level Data Collection
- Indicator Tracking

- Field Reporting

## **Information & Data Management**

- Data Cleaning & Validation
- Data Quality Assurance (DQA)
- Database Administration
- Data Verification
- Duplicate Detection
- Data Management & Archiving
- Excel-Based Analysis
- Information Management

## **Digital Data Collection**

- KoboToolbox
- ODK / Open Data Kit
- Enketo
- Google Forms
- Form Logic & Skip Patterns
- Digital Survey Design
- Mobile Data Collection
- GPS / Location Data

## **ICT & Technical Support**

- Hardware & Software Troubleshooting
- Windows & Computer Systems
- Network Support
- Mobile Device Support
- Microsoft Office
- Google Workspace
- User Support & Training
- Digital Systems Administration

## **Field & Community Engagement**

- Community Mobilization
  - Stakeholder Engagement
  - Respondent Management
  - Field Team Coordination
  - Local Authority Engagement
  - Hard-to-Reach Area Operations
  - Confidentiality & Data Protection
-

# PROFESSIONAL EXPERIENCE

**SOCIETY FOR FAMILY HEALTH (SFH) — Maiduguri, Borno State**

## **Lead Field Enumerator & Digital Data Specialist**

**May 2025 – December 2025**

**Operational Coverage:** Maiduguri Metropolitan Area, Bama, Gwoza, Pulka & Konduga

- Led digital household data collection and field assessments across multiple operational locations using **KoboToolbox and ODK**.
- Coordinated field-level survey activities, respondent engagement, data submission and daily follow-up to maintain collection schedules.
- Conducted systematic **data quality checks**, identifying missing values, duplicate records, inconsistent responses and logical errors before final submission.
- Performed daily data extraction, cleaning, validation and synchronization to support timely program monitoring and reporting.
- Provided frontline technical support to field enumerators, resolving mobile-device, application and connectivity challenges during field deployment.
- Supported beneficiary verification and household-level information gathering while maintaining strict confidentiality of sensitive records.
- Assisted in transforming raw field information into structured summaries and reports for program and MEAL decision-making.
- Worked effectively across challenging field environments while maintaining professional standards for safety, accuracy and community engagement.

**Key Value:** Combined **field operations + digital data collection + technical support + data quality** to strengthen the reliability of humanitarian field information.

---

## **NAIRAGUARD — Maiduguri, Borno State**

### **Field Operations & Data Verification Specialist**

**May 2024 – December 2024**

- Coordinated field deployment activities, respondent targeting, daily schedules and operational follow-up across assigned locations.
- Conducted beneficiary registration, household verification and systematic cross-checking of collected information.
- Implemented digital-first data collection practices to improve the speed, consistency and traceability of field submissions.

- Reviewed submitted records for completeness, inconsistencies and potential duplication before escalation or finalization.
- Identified field-level logistical and operational challenges and communicated emerging risks to supervisors for timely resolution.
- Engaged community members, local authorities and other stakeholders to facilitate access, participation and effective field implementation.
- Maintained confidentiality when handling sensitive household and beneficiary information.
- Supported field teams in adhering to established data collection procedures and operational requirements.

**Key Value:** Strengthened the connection between **field implementation, beneficiary verification and reliable operational data.**

---

## **GDJSS ALI MARAMI HOUSING ESTATE — Damaturu, Yobe State**

### **Lead ICT Systems & Data Administrator**

**July 2018 – July 2019**

- Delivered practical computer and digital-skills training to **200+ students and staff**, covering Microsoft Office, spreadsheets, internet tools and basic computer applications.
- Provided day-to-day technical support for computers, operating systems, peripherals and local network connectivity.
- Supported system configuration, software installation, troubleshooting and maintenance of institutional workstations.
- Maintained digital records and supported database updates, administrative reporting and electronic document organization.
- Introduced practical approaches to digital record management, improving accessibility and consistency of institutional information.
- Assisted users with technical issues and provided clear guidance to improve adoption of digital tools.

**Key Achievement:** Built practical digital capacity for **200+ users** while supporting institutional ICT operations.

---

## **SAM CENTER — Maiduguri, Borno State**

### **Database Administrator & Data Systems Analyst**

## **June 2017 – March 2018**

- Administered structured databases and maintained organized digital records for efficient information retrieval.
- Conducted routine data validation and integrity checks to identify inconsistencies, incomplete records and data-entry errors.
- Supported database updates, record maintenance and information organization for operational use.
- Implemented regular backup practices to reduce the risk of data loss and improve information continuity.
- Managed user access and permissions to help protect sensitive organizational information.
- Assisted users with database-related issues and supported accurate and timely access to required information.

**Key Value:** Combined **database administration, data quality and information security** to strengthen organizational information systems.

---

# **SELECTED PROFESSIONAL IMPACT**

## **FIELD DATA COLLECTION**

Supported digital household surveys, beneficiary verification and field assessments across challenging operational environments in North-East Nigeria.

## **DATA QUALITY**

Applied structured validation, cleaning and verification processes to improve the completeness, consistency and reliability of field datasets.

## **ICT CAPACITY BUILDING**

Trained **200+ students and staff** in practical computer applications, digital tools and workplace technology.

## **FIELD TECHNOLOGY**

Provided frontline technical support for mobile devices, digital data-collection applications, connectivity and field reporting workflows.

## **COMMUNITY ENGAGEMENT**

Worked directly with respondents, community representatives and local stakeholders to facilitate field access and effective data collection.
