Maiduguri, Borno State, Nigeria | +234 901 776 6836 | hassantijjani5@gmail.com
LinkedIn: linkedin.com/in/hasan-tijjani-40b210166/ | Portfolio: hassantijjani5-droid.github.io

PROFESSIONAL SUMMARY

Humanitarian data, MEAL and information management professional with practical experience in digital data collection, household assessments, beneficiary verification, database administration, data quality assurance and technology-enabled field operations in North-East Nigeria. Skilled in using KoboToolbox, ODK, Microsoft Excel and Access to organize field information, validate datasets, support enumerators and maintain confidentiality. Combines field implementation, digital systems, community engagement and data management to support reliable programme information and timely reporting.

CORE COMPETENCIES

MEAL & Programme Monitoring: Household surveys, baseline/endline data collection, rapid needs assessments, beneficiary verification, field monitoring support, indicator tracking and data collection reporting.

Information Management & Data Quality: Data cleaning, validation, DQA, database administration, duplicate detection, data integrity, digital records management, reporting and archiving.

Digital Data Collection: KoboToolbox, ODK, Enketo, Google Forms, mobile data collection, survey logic, skip patterns, GPS/location data and digital field workflows.

ICT & Field Operations: Hardware/software troubleshooting, Windows systems, computer maintenance, software installation, basic network support, user assistance, community mobilization, stakeholder engagement, confidentiality and data protection.

PROFESSIONAL EXPERIENCE

SOCIETY FOR FAMILY HEALTH (SFH) — Lead Field Enumerator & Digital Data Specialist | May 2025 – December 2025
Maiduguri, Bama, Gwoza, Pulka and Konduga, Borno State

- Led digital household data collection and field assessments using KoboToolbox and ODK.
- Coordinated daily field activities, respondent engagement, data submission and follow-up to support timely survey completion.
- Checked records for missing information, duplicates, inconsistent responses and logical errors before submission.
- Supported data extraction, cleaning, validation and synchronization to improve dataset completeness and reliability.
- Provided frontline technical support for mobile devices, data-collection applications and connectivity issues.
- Supported beneficiary verification and organized field summaries for monitoring and programme reporting while protecting sensitive information.

NAIRAGUARD — Field Operations & Data Verification Specialist | May 2024 – December 2024
Maiduguri, Borno State

- Supported field deployment, daily scheduling, respondent targeting and operational follow-up.
- Conducted beneficiary registration, household verification and cross-checking of collected information.
- Reviewed records for completeness, inconsistencies and possible duplication; escalated operational and logistical challenges.
- Engaged community members, local authorities and stakeholders and helped teams follow data-collection and confidentiality procedures.

PROFESSIONAL EXPERIENCE — CONTINUED

GDJSS ALI MARAMI HOUSING ESTATE — ICT Systems & Data Administrator / Computer Instructor | July 2018 – July 2019
Damaturu, Yobe State

- Delivered practical computer and digital-skills training to more than 200 students and staff, including Microsoft Office, spreadsheets and internet tools.
- Provided technical support for computers, operating systems, peripherals and network connectivity; assisted with software installation, configuration and routine maintenance.
- Maintained digital records, supported database updates and organized electronic documents and administrative reports.

SAM CENTER — Database Administrator & Data Systems Analyst | June 2017 – March 2018
Maiduguri, Borno State

- Maintained structured databases and digital records for efficient information retrieval.
- Conducted data-integrity checks, supported database updates and routine backups, and helped resolve database-related issues.
- Supported responsible handling of sensitive information and user access.

SELECTED ACHIEVEMENTS

- Supported household surveys, beneficiary verification and field assessments in North-East Nigeria.
- Applied data validation, cleaning and verification procedures to improve dataset completeness and consistency.
- Trained more than 200 students and staff in computer applications and digital tools.
- Helped field teams address mobile-device, application and connectivity challenges.

TECHNICAL SKILLS

Data collection: KoboToolbox, ODK, Enketo, Google Forms, household surveys, GPS/location data.
